

# Deployable Primary Care Treatment Container

PN: SBI-DPCC-002

SOLUTION BASED  
INNOVATION, LLC.

## Medical Components:

- Wall mounted examination light 220V/50Hz
- Electric procedural programmable table w/rotation and knee crutch
- Patient Monitor EKG, NIBP, SP02, Pulse, Resp, Temp
- Wall Mounted Ophthalmoscope & Otoscope,
- Portable suction unit 110/240 volt 50/60 Hz
- Mechanical Eye-Level Scale with height rod
- Airlift stool with backrest
- Philips Lumify 3 transducer ultrasound set with cart and printer
- Pediatric exam table with built-in digital scale
- Tuttנauer table top sterilizer 220v/50hz
- Refrigerator & Freezer for lab or medical
- Wall mounted IV Pump adjustable I.V. pole
- Stainless steel drop down wall mounted procedural table
- Wall mounted double oxygen tank holder with 2 bottles

## Container Specification

- \* Wipeable walls and ceilings
- \* Industrial safety flooring
- \* Flexible modular French Cleat tall wall cabinets & desk sets
- \* Stainless steel double sink with a flexible faucet
- \* Built in BIO Hazard container and General Trash System
- \* Integrated 220v/50hz air conditioning/heat pump system
- \* Built in LED lighting sets
- \* (12) universal duplex electrical outlets controlled by a GFCI breaker box
- \* VOIP telephone with exterior communication port access panel
- \* Quick connect external potable water supply connection
- \* Quick connect external grey water waste connection with 50 gallon bladder
- \* Instant on continuous water heater
- \* Communication Window
- \* Fire Extinguisher and smoke detector
- \* Container Safety Certified (CSC) container for Sea Ship-ment

# Deployable Self Contained General Dentistry Container

## PN: SBI-DC-006

### Medical & Dental Contents:

Nomad portable intra oral digital x-ray

Digital Sensor System with Laptop size 1 & size 2 sensors

Digital imagery laptop suite

Aseptico hydraulic/electric dental chair

Two Dental Procedure lights

Tabletop ultrasonic cleaner

Aseptico Dental Delivery System-self contained 220v/50hz Includes:

Three pneumatic handpiece connections, dual air/water syringes Internal air compressor, internal interval vacuum pump with electric waste purge dual closed water bottle system with waterline disinfection treatment cartridge and assistant arm with straight high volume evacuator, saliva ejector, Fiberoptic system with handpiece tubing, 60" universal five/six-pin fiberoptic system for a single handpiece and 60" of handpiece tubing. Amalgam separator, external. Highspeed handpieces low speed handpiece

Tuttnauer Tabletop steam sterilizer 220v50hz

Aseptico Dentist's Stool

Aseptico Dental Assistant's Stool

Wall mounted double oxygen tank holder with 2 bottles

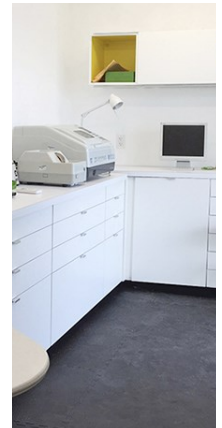

### Container Specification

- \* Wipeable walls and ceilings
- \* Industrial safety flooring
- \* Flexible modular French Cleat tall wall cabinets & desk sets
- \* Stainless steel double sink with a flexible faucet
- \* Built in BIO Hazard container and General Trash System
- \* Integrated 220v/50hz air conditioning/heat pump system
- \* Built in LED lighting sets
- \* (12) universal duplex electrical outlets controlled by a GFCI breaker box
- \* VOIP telephone with exterior communication port access panel
- \* Quick connect external potable water supply connection
- \* Quick connect external grey water waste connection with 50 gallon bladder
- \* Instant on continuous water heater
- \* Communication Window
- \* Fire Extinguisher and smoke detector
- \* Container Safety Certified (CSC) container for Sea Shipment

# Deployable Self Contained Laboratory Container

**PN: SBI-LC-002**

## Laboratory Contents:

- \* Abbott I Stat point of chemistry analyzer with printer
- \* Piccolo Express diagnostic analyzer chemistry
- \* Henry Schein Microscope
- \* Abbott Hematology Analyzer automated
- \* Fisher Sci. Centrifuge bench top model
- \* laboratory Refrigerator and Freezer
- \* Aseptico airlift stool with backrest
- \* Stainless Steel Counter tops
